

BRYAN R.

Dedicated, Passionate, Outgoing

"Long live **the rose that grew from concrete** when no one else cared."

- Tupac Shukar

BIOGRAPHY

Now in his 6th year with the 49ers STEM Leadership Institute (SLI), Bryan has participated in the San Jose Tech Museum's Tech Challenge and ExploraVision competitions over the course of several years. More importantly, he has used his time in SLI to hone his soft skills. With appreciation for the academic opportunities that he has had, Bryan enjoys spending his free time giving back to his community. He deeply enjoys coaching little league, which he's been doing since 2015. He also coaches 5-8 years in old flag football, leading both his little league and football teams to local championships.
