

# Pranav G.N.

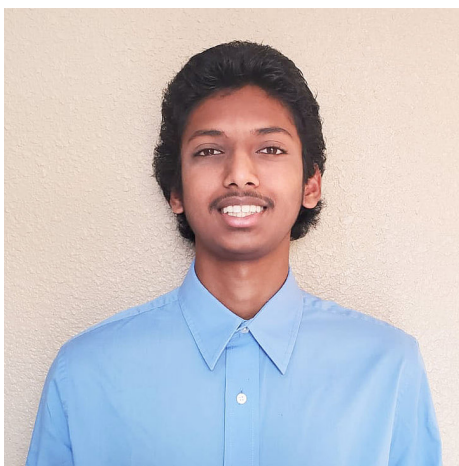

*Curious, Introspective, Easy-going*

We came into a **broken world**. And we're the cleanup crew.

- Kanye Omari West

## BIOGRAPHY

Pranav is a determined member of the 49ers STEM Leadership Institute (SLI). Ever since he was little, he has shown an interest math and science through school classes and extracurriculars. During his high school years, he has narrowed his purview of career paths to medicine after being exposed to robotics competitions, engineering fairs, and hospital observerships. The amalgamation of his experiences in these activities and rigorous high school classes have materialized in the form of leadership and persistence skills. Following a medical summer camp, he became dead-set on his path. After high school, Pranav hopes to major in biochemistry and eventually become a physician. In his free time, he enjoys practicing the piano and violin, playing tennis for the school team, and watching cricket matches.
